

## ABOUT US

In 2010 leading researchers and practitioners in collaboration with WHO (2010) developed Healthy Workplace – a model for action. The model is relatively unknown in Sweden and our mission is to make sure that known research about Healthy Workplaces get practically applied and integrated into our organisations in Sweden.

In december 2019, the initiative Healthy Workplace Sweden was born between academics and practitioners in Sweden with passion for supporting organisation in the path to Healthy Workplace.

## WHO ARE YOU?

We think that you exactly like us have a passion for and experience of working professionally with supporting or leading organisations toward a Healthy Workplace. You have worked a couple of years on a strategic level in the area of Health Promotion, Organisational and Leadership Development or Human Resources. You are eager to learn from others and co-create. We would love you to bring people from your organisation or organisations that you support that are key stakeholders for co-creating a Healthy Workplace.
